Heavy Parts Original is the manufacturer of spare parts for European and American agricultural machinery brands. Heavy Parts offers a wide range of spare parts for grain harvesters and silos combines, soil cultivators and seeders.

All spare parts are made of quality materials, which undergo testing before being used for production.

Participation in exhibitions

During the year, the Heavy Parts brand entered the world level and was presented at the world's largest exhibition Agritechnica 2017. The Heavy Parts stand was attended by representatives from different continents who appreciated Ukrainian product.

Production

The Heavy Parts workshops began mass production of spare parts at the end of 2016 and started to work in full force in 2017.

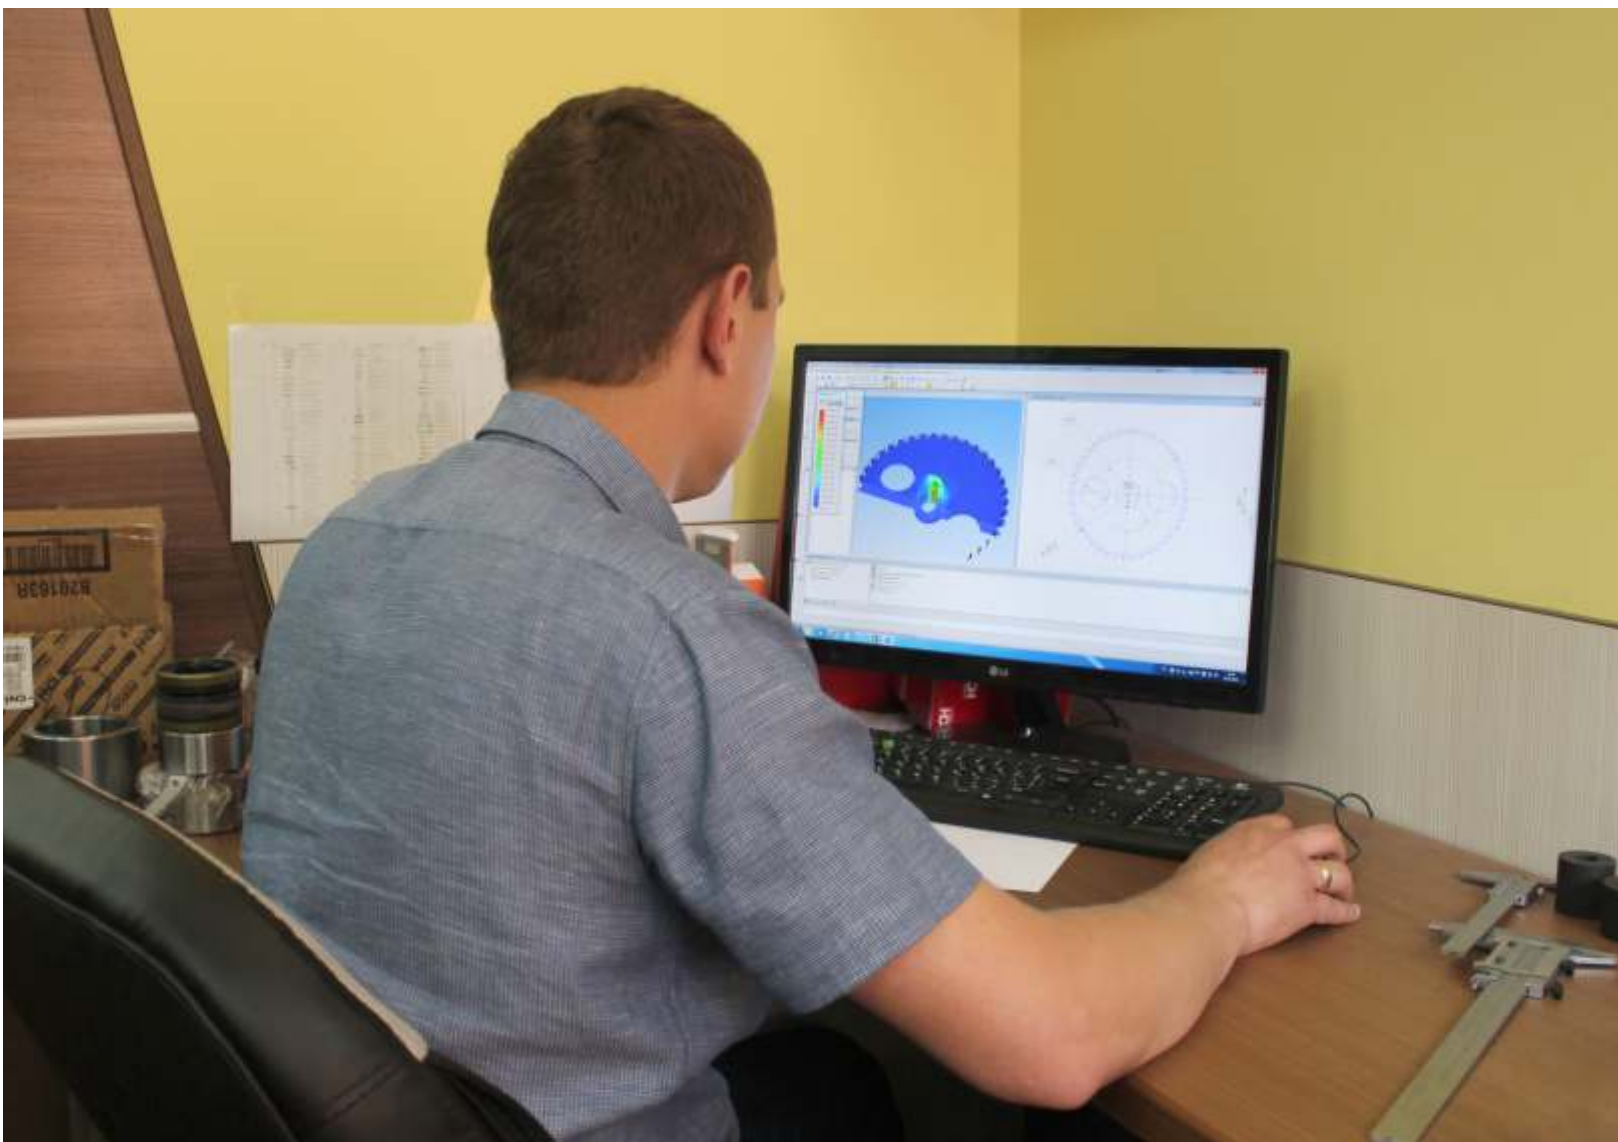

The production is located in Ukraine and the Czech Republic.
Quality spare parts received instant positive feedback from
buyers.

Production

During the year, many technological processes, that allowed to increase the range, were launched.

Heavy Parts managed to increase the range of production by about 500 items. About 20 thousand spare parts were manufactured during the year.

Production

All spare parts are made of quality materials which are thoroughly checked. Our production is the team of experienced specialists who work on the newest European equipment. We make identical to the original spare parts in accordance with all norms and standards.
